The directors have pleasure in presenting their report together with the audited financial statements of the Group and of the Company for the financial year ended 31 August 2015.

Principal activities

The principal activities of the Company are investment holding and provision of management services.

The principal activities of the subsidiaries are described in Note 19 to the financial statements.

There have been no significant changes in the nature of the principal activities during the financial year.

</table>

There were no material transfers to or from reserves or provisions during the financial year other than as disclosed in the financial statements.

In the opinion of the directors, the results of the operations of the Group and of the Company during the financial year were not substantially affected by any item, transaction or event of a material and unusual nature.

Dividends

The amount of dividends paid by the Company since 31 August 2014 were as follows:

<table>
<thead>
<tr>
<th></th>
<th>RM’000</th>
</tr>
</thead>
<tbody>
<tr>
<td>In respect of the financial year ended 31 August 2014:</td>
<td></td>
</tr>
<tr>

<td>55,565</td>
</tr>
<tr>
<td>In respect of the financial year ended 31 August 2015:</td>
<td></td>
</tr>
<tr>
<td>First interim single tier dividend of 16%, paid on 15 July 2015</td>
<td>49,419</td>
</tr>
</tbody>
</table>

104,984

At the forthcoming Annual General Meeting, a single tier final dividend of 24% on 620,859,762 ordinary shares amounting to RM74,503,171 (12.00 sen per share) in respect of the financial year ended 31 August 2015 will be proposed for shareholders’ approval. The financial statements for the current financial year do not reflect this proposed dividend. Such dividend, if approved by the shareholders, will be accounted for in equity as an appropriation of retained earnings in the financial year ending 31 August 2016.
Directors

The names of the directors of the Company in office since the date of the last report and at the date of this report are:

Tan Sri Dr Lim Wee Chai
Tan Sri Dato' Seri Utama Arshad bin Ayub
Tan Sri Mohd Sidek bin Haji Hassan
Tan Sri Rainer Althoff
Lee Kim Meow
Puan Sri Tong Siew Bee
Lim Hooi Sin
Lim Cheong Guan
Dato' Lim Han Boon
Datuk Noripah Binti Kamso (appointed on 18 March 2015)
Sharmila Sekarajasekaran (appointed on 18 March 2015)
Tan Sri Dato' Dr Lin See Yan (retired on 8 January 2015)
Sekarajasekaran a/l Arasaratnam (retired on 18 March 2015)

Directors’ benefits

Neither at the end of the financial year, nor at any time during that year, did there subsist any arrangement to which the Company was a party, whereby the directors might acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate, other than those arising from the share options granted under the Employee Share Options Scheme (“ESOS”).

Since the end of the previous financial year, no director has received or become entitled to receive a benefit (other than benefits included in the aggregate amount of emoluments received or due and receivable by the directors or the fixed salary of a full-time employee of the Company as shown in Note 13 to the financial statements) by reason of a contract made by the Company or a related corporation with a director or with a firm of which the director is a member, or with a company in which the director has a substantial financial interest.

Directors’ interests

According to the register of directors’ shareholdings, the interests of directors in office at the end of the financial year in shares and options over shares in the Company during the financial year were as follows:

<table>

Tan Sri Dr Lim Wee Chai, Puan Sri Tong Siew Bee and Lim Hooi Sin by virtue of their interest in shares of the Company are also deemed interested in shares of all the subsidiaries to the extent the Company has an interest.

The other directors in office at the end of the financial year had no interest in shares in the Company or its related corporations or in share options in the Company during the financial year.

**Issue of shares**

During the financial year, the Company increased its issued and paid-up share capital from RM310,332,000 to RM312,092,000 by way of issuance of 3,520,100 ordinary shares of RM0.50 each pursuant to the exercise of ESOS at an option price between RM2.01 and RM6.97 per ordinary share.

The new ordinary shares issued during the financial year ranked pari passu in all respects with the existing ordinary shares of the Company.

**Treasury shares**

During the financial year, the Company repurchased 3,324,000 of its issued ordinary shares from the open market at the average price of RM4.43 per share. The total consideration paid for the repurchase including transaction costs was RM14,722,000. The shares repurchased are being held as treasury shares in accordance with Section 67A of the Companies Act 1965. Further relevant details are disclosed in Note 34 to the financial statements.

**Employee share options scheme**

The Company’s ESOS is governed by the by-laws which was approved by the shareholders at the Extraordinary General Meeting held on 9 January 2008 and became effective on 1 August 2008.

The main features and other terms of the ESOS are disclosed in Note 37 to the financial statements.

**Other statutory information**

(a) Before the income statements, statements of comprehensive income and statements of financial position of the Group and of the Company were made out, the directors took reasonable steps:

(i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of provision for doubtful debts and satisfied themselves that all known bad debts had been written off and that adequate provision had been made for doubtful debts; and

(ii) to ensure that any current assets which were unlikely to realise their value as shown in the accounting records in the ordinary course of business had been written down to an amount which they might be expected so to realise.
Other statutory information (continued)

(b) At the date of this report, the directors are not aware of any circumstances which would render:
   (i) the amount written off for bad debts or the amount of the provision for doubtful debts in the financial statements of the Group and of the Company inadequate to any substantial extent; and
   (ii) the values attributed to the current assets in the financial statements of the Group and of the Company misleading.

(c) At the date of this report, the directors are not aware of any circumstances which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.

(d) At the date of this report, the directors are not aware of any circumstances not otherwise dealt with in this report or financial statements of the Group and of the Company which would render any amount stated in the financial statements misleading.

(e) At the date of this report, there does not exist:
   (i) any charge on the assets of the Group or of the Company which has arisen since the end of the financial year which secures the liabilities of any other person; or
   (ii) any contingent liability of the Group or of the Company which has arisen since the end of the financial year.

(f) In the opinion of the directors:
   (i) no contingent or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which will or may affect the ability of the Group or of the Company to meet their obligations when they fall due; and
   (ii) no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of the operations of the Group or of the Company for the financial year in which this report is made.

Subsequent events

Details of subsequent events are disclosed in Note 46 to the financial statements.

Auditors

The auditors, Ernst & Young, have expressed their willingness to continue in office.

Signed on behalf of the Board in accordance with a resolution of the directors dated 30 October 2015.

Lee Kim Meow                  Dato’ Lim Han Boon
STATEMENT BY DIRECTORS
PURSUANT TO SECTION 169(15) OF THE COMPANIES ACT, 1965

We, Lee Kim Meow and Dato’ Lim Han Boon, being two of the directors of Top Glove Corporation Bhd., do hereby state that, in the opinion of the directors, the accompanying financial statements set out on pages 85 to 159 are drawn up in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia so as to give a true and fair view of the financial position of the Group and of the Company as at 31 August 2015 and of their financial performance and cash flows for the year then ended.

The information set out in Note 48 on page 160 of the financial statements have been prepared in accordance with the Guidance on Special Matter No.1, Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Malaysia Securities Berhad Listing Requirements, as issued by the Malaysian Institute of Accountants.

Signed on behalf of the Board in accordance with a resolution of the directors dated 30 October 2015.

Lee Kim Meow Dato’ Lim Han Boon

STATUTORY DECLARATION
PURSUANT TO SECTION 169(16) OF THE COMPANIES ACT, 1965

I, Lee Kim Meow, being the director primarily responsible for the financial management of Top Glove Corporation Bhd., do solemnly and sincerely declare that the accompanying financial statements set out on pages 85 to 160 are in my opinion correct, and I make this solemn declaration conscientiously believing the same to be true and by virtue of the provisions of the Statutory Declarations Act, 1960.

Subscribed and solemnly declared by the abovenamed, Lee Kim Meow at Klang in the State of Selangor on 30 October 2015

Lee Kim Meow

Before me,

Goh Cheng Teak
Commissioner for Oaths
Report on the financial statements

We have audited the financial statements of Top Glove Corporation Bhd., which comprise the statements of financial position of the Group and of the Company as at 31 August 2015, and the income statements, statements of comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the year then ended, and a summary of significant accounting policies and other explanatory notes, as set out on pages 85 to 159.

Directors’ responsibility for the financial statements

The directors of the Company are responsible for the preparation of financial statements so as to give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors’ responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity’s preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Group and of the Company as at 31 August 2015 and of their financial performance and cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia.
Report on other legal and regulatory requirements

In accordance with the requirements of the Companies Act, 1965 in Malaysia, we also report the following:

(a) In our opinion, the accounting and other records and the registers required by the Act to be kept by the Company and its subsidiaries of which we have acted as auditors have been properly kept in accordance with the provisions of the Act.

(b) We have considered the financial statements and the auditors’ reports of all the subsidiaries of which we have not acted as auditors, which are indicated in Note 19 to the financial statements, being financial statements that have been included in the consolidated financial statements.

(c) We are satisfied that the financial statements of the subsidiaries that have been consolidated with the financial statements of the Company are in form and content appropriate and proper for the purposes of the preparation of the consolidated financial statements and we have received satisfactory information and explanations required by us for those purposes.

(d) The auditors’ reports on the financial statements of the subsidiaries were not subject to any qualification material to the consolidated financial statements and did not include any comment required to be made under Section 174(3) of the Act.

Other reporting responsibilities

The supplementary information set out in Note 48 to the financial statements on page 160 is disclosed to meet the requirement of Bursa Malaysia Securities Berhad. The directors are responsible for the preparation of the supplementary information in accordance with Guidance on Special Matter No. 1, Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Malaysia Securities Berhad Listing Requirements, as issued by the Malaysian Institute of Accountants ("MIA Guidance") and the directive of Bursa Malaysia Securities Berhad. In our opinion, the supplementary information has been prepared, in all material respects, in accordance with the MIA Guidance and the directive of Bursa Malaysia Securities Berhad.

Other matters

This report is made solely to the members of the Company, as a body, in accordance with Section 174 of the Companies Act, 1965 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

The accompanying accounting policies and explanatory notes form an integral part of the financial statements.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2015

1. Corporate information

Top Glove Corporation Bhd. ("the Company") is a public limited liability company incorporated and domiciled in Malaysia, and is listed on the Main Market of Bursa Malaysia Securities Berhad. The principal place of business of the Company is located at Lot 4969, Jalan Teratai, Batu 6, Off Jalan Meno, 41050 Klang, Selangor.

The principal activities of the Company are investment holding and provision of management services. The principal activities of the subsidiaries are described in Note 19. There have been no significant changes in the nature of the principal activities during the financial year.

2. Basis of preparation

These financial statements of the Group and of the Company have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRS") as issued by the Malaysian Accounting Standards Board ("MASB"), International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board and the requirements of the Companies Act, 1965 in Malaysia.

The financial statements have also been prepared on a historical basis, unless otherwise indicated in the accounting policies below.

The financial statements are presented in Ringgit Malaysia (RM) and all values are rounded to the nearest thousand (RM'000) except when otherwise indicated.

3. Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and of its subsidiaries as at 31 August 2015. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee;
- Rights arising from other contractual arrangements; and
- The Group’s voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in profit or loss from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group’s accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.
3. Basis of consolidation (continued)

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

4. Summary of significant accounting policies

4.1 Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the Group elects whether it measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree’s identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the previously held equity interest is re-measured at its acquisition date fair value and any resultant gain or loss is recognised in profit or loss. It is then considered in the determination of goodwill.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of MFRS 139 Financial Instruments: Recognition and Measurement, is measured at fair value with changes in fair value recognised either in profit or loss or as a change to OCI. If the contingent consideration is not within the scope of MFRS 139, it is measured in accordance with the appropriate MFRS. Contingent consideration that is classified as equity is not re-measured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the re-assessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group’s cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.
4. Summary of significant accounting policies (continued)

4.1 Business combinations and goodwill (continued)

Business combinations involving entities under common control are accounted for by applying the pooling on interest method. The assets and liabilities of the combining entities are reflected at their carrying amounts reported in the consolidated financial statements of the controlling holding company. Any difference between the consideration paid and the share capital of the "acquired" entity is reflected within equity as merger reserve. The statement of comprehensive income reflects the results of the combining entities for the full year, irrespective of when the combination takes place. Comparatives are presented as if the entities have always been combined since the date the entities had come under common control.

4.2 Current versus non-current classification

Assets and liabilities in the statement of financial position are presented based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

4.3 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant’s ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

Valuation techniques that are appropriate in the circumstances and for which sufficient data are available, are used to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.
4. Summary of significant accounting policies (continued)

4.3 Fair value measurement (continued)

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Policies and procedures are determined by senior management for both recurring fair value measurement and for non-recurring measurement.

External valuers are involved for valuation of significant assets and significant liabilities. Involvement of external valuers is decided by senior management. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. The senior management decides, after discussions with the external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, the senior management analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed according to the accounting policies of the Group. For this analysis, the senior management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The senior management, in conjunction with the external valuers, also compares the changes in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, classes of assets and liabilities are determined based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

4.4 Transactions with non-controlling interest

Non-controlling interest represents the equity in subsidiaries not attributable, directly or indirectly, to owners of the Company, and is presented separately in the consolidated statement of comprehensive income and within equity in the consolidated statement of financial position, separately from equity attributable to owners of the Company.

Changes in the Company owners’ ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the parent.
4. Summary of significant accounting policies (continued)

4.5 Foreign currencies

(a) Functional and presentation currency

The Group’s and the Company’s financial statements are presented in Ringgit Malaysia which is also
the Company’s functional currency. Each entity in the Group determines its own functional currency
and items included in the financial statements of each entity are measured using that functional
currency.

(b) Transactions and balances

Transactions in foreign currencies are initially recorded by the Group entities at the functional currency
spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities
denominated in foreign currencies are translated at the functional currency spot rates at the reporting
date.

Differences arising on settlement or translation of monetary items are recognised in profit or loss with
the exception of monetary items that are designated as part of the hedge of the Group’s net
investment of a foreign operation. These are recognised in OCI until the net investment is disposed of,
at which time, the cumulative amount is reclassified to profit or loss. Tax charges and credits
attributable to exchange differences on those monetary items are also recorded in OCI.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated
using the exchange rates at the dates of the initial transactions. Non-monetary items measured at
fair value in a foreign currency are translated using the exchange rates at the date when the fair value
is determined. The gain or loss arising on translation of non-monetary items measured at fair value
is treated in line with the recognition of gain or loss on change in fair value of the item (i.e., translation
differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also
recognised in OCI or profit or loss, respectively).

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the
carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities
of the foreign operation and translated at the spot rate of exchange at the reporting date.

(c) Group companies

On consolidation, the assets and liabilities of foreign operations are translated into RM at the rate of
exchange prevailing at the reporting date and their income statements are translated at exchange
rates prevailing at the dates of the transactions. The exchange differences arising on translation for
consolidation are recognised in OCI. On disposal of a foreign operation, the component of OCI relating
to that particular foreign operation is recognised in profit or loss.

4.6 Revenue and other income recognition

Revenue and other income are recognised to the extent that it is probable that the economic benefits will
flow to the Group and the Company and the revenue and other income can be reliably measured,
regardless of when the payment is being made. Revenue and other income are measured at the fair
value of the consideration received or receivable, taking into account contractually defined terms of
payment and excluding taxes or duty. The Group and the Company have concluded that they are the
principals in all of their revenue arrangements since they are the primary obligors in all the revenue
arrangements, have pricing latitude and are also exposed to inventory and credit risks.
4. Summary of significant accounting policies (continued)

4.6 Revenue and other income recognition (continued)

The specific recognition criteria described below must also be met before revenue is recognised.

(a) Sale of goods

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods.

(b) Dividend income

Dividend income is recognised when the Group’s and the Company’s right to receive payment is established.

(c) Management fees

Management fees are recognised when services are rendered.

(d) Interest income

For all financial instruments measured at amortised cost and interest bearing financial assets classified as available for sale, interest income or expense is recorded using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or liability. Interest income is included in finance income in profit or loss.

(e) Rental income

Rental income is accounted for on a straight-line basis over the lease terms. The aggregate costs of incentives provided to lessees are recognised as a reduction of rental income over the lease term on a straight-line basis.

4.7 Employee benefits

(a) Short term benefits

Wages, salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

(b) Defined contribution plans

The Group makes contributions to the Employees Provident Fund in Malaysia, a defined contribution pension scheme. Contributions to defined contribution pension schemes are recognised as an expense in the period in which the related service is performed.
4. Summary of significant accounting policies (continued)

4.7 Employee benefits (continued)

(c) Employee share option plans

Employees of the Group receive remuneration in the form of share options as consideration for services rendered. The cost of these equity-settled transactions with employees is measured by reference to the fair value of the options at the date on which the options are granted. This cost is recognised in profit or loss. The cumulative expense recognised at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group’s best estimate of the number of options that will ultimately vest. The charge or credit to profit or loss for a period represents the movement in cumulative expense recognised at the beginning and end of that period.

No expense is recognised for options that do not ultimately vest, except for options where vesting is conditional upon a market or non-vesting condition, which are treated as vested irrespective of whether or not the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When the options are exercised, the employee share option reserve is transferred to share premium if new shares are issued.

The employee share option reserve is transferred to retained earnings upon forfeiture or expiry of the share options.

4.8 Taxes

(a) Current income tax

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Group operates and generates taxable income.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the income statement. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(b) Deferred tax

Deferred tax is provided using the liability method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all temporary differences, except:

(i) where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

(ii) in respect of taxable temporary differences associated with investments in subsidiaries and associates, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.
4. Summary of significant accounting policies (continued)

4.8 Taxes (continued)

(b) Deferred tax (continued)

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

(i) where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

(ii) in respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

4.9 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

4.10 Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and/or accumulated impairment losses, if any. Such cost includes the cost of replacing component parts of the property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met.
4. Summary of significant accounting policies (continued)

4.10 Property, plant and equipment (continued)

When significant parts of property, plant and equipment are required to be replaced at intervals, the Group derecognises the replaced part, and recognises the new part with its own associated useful life and depreciation. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the profit or loss as incurred. The present value of the expected cost for the decommissioning of the asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Freehold land has an unlimited useful life and therefore is not depreciated. Capital work-in-progress are not depreciated as these assets are not available for use. Depreciation is computed on a straight-line basis over the estimated useful lives of the assets as follows:

- Buildings: 20 to 50 years
- Plant and equipment: 10 years
- Other assets: 5 to 10 years

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on derecognition of the asset is included in the profit or loss in the year the asset is derecognised.

The assets’ residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

4.11 Investment properties

Investment properties are initially measured at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and any accumulated impairment losses. The depreciation policy for investment properties are in accordance with that for property, plant and equipment as described in Note 4.10.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

Transfers are made to (or from) investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the carrying amount at the date of change in use. For a transfer from owner-occupied property to investment property, the property is accounted for in accordance with the accounting policy for property, plant and equipment set out in Note 4.10 up to the date of change in use.

4.12 Leases

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception date, whether fulfilment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset, even if that right is not explicitly specified in an arrangement.
4. Summary of significant accounting policies (continued)

4.12 Leases (continued)

(a) Group as lessee

Finance leases which transfer to the Group substantially all the risks and benefits incidental to
ownership of the leased item, are capitalised at the commencement of the lease at the fair value of
the leased property or, if lower, at the present value of the minimum lease payments. Lease
payments are apportioned between finance charges and reduction of the lease liability so as to
achieve a constant rate of interest on the remaining balance of the liability. Finance charges are
recognised in finance costs in profit or loss.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable
certainty that the Group will obtain ownership by the end of the lease term, the asset is depreciated
over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments are recognised as an operating expense in the profit or loss on a straight-
line basis over the lease term.

Land use rights are initially measured at cost. Following initial recognition, land use rights are
measured at cost less accumulated amortisation and accumulated impairment losses. The land use
rights are amortised over their lease terms as follows:

| Leasehold lands | 50 to 100 years |

(b) Group as lessor

Leases in which the Group do not transfer substantially all the risks and benefits of ownership of
the asset are classified as operating leases. Initial direct costs incurred in negotiating an operating
lease are added to the carrying amount of the leased asset and recognised over the lease term on
the same bases as rental income. Contingent rents are recognised as revenue in the period in which
they are earned.

4.13 Investment in subsidiaries

A subsidiary is an entity over which the Group has all the following:

(i) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant
activities of the investee);

(ii) Exposure, or rights, to variable returns from its investment with the investee; and

(iii) The ability to use its power over the investee to affect its returns.

In the Company’s separate financial statements, investments in subsidiaries are accounted for at cost
less impairment losses. On disposal of such investments, the difference between net disposal proceeds
and their carrying amounts is included in profit or loss.
4. Summary of significant accounting policies (continued)

4.14 Investment in associates

An associate is an entity, not being a subsidiary or a joint venture, in which the Group has significant influence. An associate is equity accounted for from the date the Group obtains significant influence until the date the Group ceases to have significant influence over the associate.

The Group’s investments in associates are accounted for using the equity method. Under the equity method, the investment in associates is measured in the statement of financial position at cost plus post-acquisition changes in the Group’s share of net assets of the associates. Goodwill relating to associates is included in the carrying amount of the investment. Any excess of the Group’s share of the net fair value of the associate’s identifiable assets, liabilities and contingent liabilities over the cost of the investment is excluded from the carrying amount of the investment and is instead included as income in the determination of the Group’s share of the associate’s profit or loss for the period in which the investment is acquired.

When the Group’s share of losses in an associate equals or exceeds its interest in the associate, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

After application of the equity method, the Group determines whether it is necessary to recognise an additional impairment loss on the Group’s investment in its associates. The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount in profit or loss.

The financial statements of the associates are prepared as of the same reporting date as the Company unless it is impracticable to do so. When the financial statements of associates used in applying the equity method are prepared as of a different reporting date from that of the Company, adjustments are made for the effects of significant transactions or events that occur between that date and the reporting date of the Company. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

In the Company’s separate financial statements, investments in associates are stated at cost less impairment losses. On disposal of such investments, the difference between net disposal proceeds and their carrying amounts is included in profit or loss.

4.15 Inventories

Inventories are stated at the lower of cost and net realisable value. Costs incurred in bringing the inventories to their present location and condition are accounted for as follows:

- Raw materials, packing materials and consumables: purchase costs on a weighted average basis.
- Former: purchase costs on a first in, first out basis.
- Finished goods and work-in-progress: costs of direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity, excluding borrowing costs. These costs are assigned on a weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business less estimated costs of completion and the estimated costs necessary to make the sale.
4. Summary of significant accounting policies (continued)

4.16 Impairment of non-financial assets

At each reporting date, an assessment is made as to whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the asset’s recoverable amount is estimated. An asset’s recoverable amount is the higher of an asset’s or cash-generating unit’s (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

Impairment calculation are based on detailed budgets and forecast calculations, which are prepared separately for each CGU to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses of continuing operations, including impairment on inventories, are recognised in profit or loss in expense categories consistent with the function of the impaired asset.

Goodwill is tested for impairment annually at reporting date and when circumstances indicate that the carrying value may be impaired. Impairment is determined by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

For assets other than goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the recoverable amount of the asset or CGU is estimated. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset’s recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss.

4.17 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.
4. Summary of significant accounting policies (continued)

4.18 Financial assets

(a) Initial recognition and measurement

Financial assets are classified, at initial recognition, as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, available-for-sale financial assets, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

The Group’s financial assets include cash and short-term deposits, trade and other receivables, investment securities and derivative assets.

(b) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

(i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading and financial assets designated upon initial recognition at fair value through profit or loss. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. This category includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by MFRS 139. Derivatives, including separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets at fair value through profit and loss are carried in the statement of financial position at fair value with changes in fair value recognised in finance income or finance costs in the profit or loss.

Derivatives embedded in host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated at fair value through profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss. Re-assessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of fair value through profit or loss.

The Group and the Company have designated derivatives that do not qualify for hedge accounting and money market funds as at fair value through profit or loss.

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate method (EIR), less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in profit or loss in finance costs for loans and in cost of sales or other operating expenses for receivables. The category generally applies to trade and other receivables.
4. Summary of significant accounting policies (continued)

4.18 Financial assets (continued)

(b) Subsequent measurement (continued)

(ii) Loans and receivables (continued)

Loans and receivables of the Group and Company comprise trade and other receivables (other than prepaid operating expenses and tax recoverable), due from related companies and cash and bank balances.

(iii) Held-to-maturity investments

Non-derivative financial assets with fixed or determinable payments and fixed maturities are classified as held-to-maturity when the Group has the positive intention and an ability to hold them to maturity. After initial measurement, held-to-maturity investments are measured at amortised cost using the EIR, less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance income in profit or loss. The losses arising from impairment are recognised in profit or loss as finance costs.

The Group and the Company did not have any held-to-maturity investments during the years ended 31 August 2015 and 2014.

(iv) Available-for-sale (AFS) financial investments

AFS financial investments include equity investments and debt securities. Equity investments classified as AFS are those that are neither classified as held for trading nor designated at fair value through profit or loss. Debt securities in this category are those that are intended to be held for an indefinite period of time and that may be sold in response to needs for liquidity or in response to changes in the market conditions.

After initial measurement, AFS financial investments are subsequently measured at fair value with unrealised gains or losses recognised in OCI and credited in the AFS reserve until the investment is derecognised, at which time the cumulative gain or loss is recognised in other operating income, or the investment is determined to be impaired, when the cumulative loss is reclassified from the AFS reserve to profit or loss in finance costs. Interest earned whilst holding AFS financial investments is reported as interest income using the EIR method.

The Group evaluates whether the ability and intention to sell its AFS financial assets in the near term is still appropriate. When, in rare circumstances, the Group is unable to trade these financial assets due to inactive markets, the Group may elect to reclassify these financial assets if the management has the ability and intention to hold the assets for foreseeable future or until maturity.

For a financial asset reclassified from the AFS category, the fair value carrying amount at the date of reclassification becomes its new amortised cost and any previous gain or loss on the asset that has been recognised in equity is amortised to profit or loss over the remaining life of the asset using the EIR. Any difference between the new amortised cost and the maturity amount is also amortised over the remaining life of the asset using the EIR. If the asset is subsequently determined to be impaired, then the amount recorded in equity is reclassified to profit or loss.

All quoted debts securities and golf club membership of the Group and the Company are designated as AFS financial investments.
4. Summary of significant accounting policies (continued)

4.18 Financial assets (continued)

(c) Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the statements of financial position) when:

- The rights to receive cash flows from the asset have expired;
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a ‘pass-through’ arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

(d) Impairment of financial assets

The Group assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. An impairment exists if one or more events that has occurred since the initial recognition of the asset (an incurred ‘loss event’), has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Financial assets carried at amortised cost

For financial assets carried at amortised cost, the Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

The amount of any impairment loss identified is measured as the difference between the asset’s carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset’s original effective interest rate.
4. Summary of significant accounting policies (continued)

4.18 Financial assets (continued)

(d) Impairment of financial assets (continued)

The carrying amount of the asset is reduced through the use of an allowance account and the loss is recognised in profit or loss. Interest income (recorded as finance income in profit or loss) continues to be accrued on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Group. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to finance costs in profit or loss.

Available-for-sale ("AFS") investments

For AFS financial investments, an assessment is made at each reporting date whether there is objective evidence that an investment or a group of investments is impaired.

In the case of equity investments classified as AFS, objective evidence would include a significant or prolonged decline in the fair value of the investment below its cost. ‘Significant’ is evaluated against the original cost of the investment and ‘prolonged’ against the period in which the fair value has been below its original cost. When there is evidence of impairment, the cumulative loss (measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognised in profit or loss) is removed from other comprehensive income and recognised in the statement of profit or loss. Impairment losses on equity investments are not reversed through profit or loss; increases in their fair value after impairment are recognised in other comprehensive income.

In the case of debt instruments classified as AFS, the impairment is assessed based on the same criteria as financial assets carried at amortised cost. However, the amount recorded for impairment is the cumulative loss measured as the difference between the amortised cost and the current fair value, less any impairment loss on that investment previously recognised in profit or loss.

Future interest income continues to be accrued based on the reduced carrying amount of the asset, using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. The interest income is recorded as part of finance income. If, in a subsequent year, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss is reversed through profit or loss.

4.19 Financial liabilities

(a) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group’s financial liabilities include trade and other payables, loans and borrowings, derivative liabilities and financial guarantee contracts.
4. Summary of significant accounting policies (continued)

4.19 Financial liabilities (continued)

(b) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

(i) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are acquired for the purpose of selling in the near term. This category includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by MFRS 139. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in profit or loss.

The Group and the Company have designated derivatives that do not qualify for hedge accounting as at fair value through profit or loss.

(ii) Other financial liabilities

The Group’s and the Company’s other financial liabilities include trade payables, other payables and loans and borrowings.

Trade and other payables are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost using the effective interest method.

Loans and borrowings are recognised initially at fair value, net of transaction costs incurred, and subsequently measured at amortised cost using the effective interest rate method. Gains and losses are recognised in the profit or loss when the liabilities are derecognised as well as through the effective interest rate method (EIR) amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in profit or loss.

(c) Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the best estimate of the expenditure required to settle the present obligation at the reporting date and the amount recognised less cumulative amortisation.
4. Summary of significant accounting policies (continued)

4.19 Financial liabilities (continued)

(d) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

(e) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

4.20 Derivative financial instruments

(a) Initial recognition and subsequent measurement

The Group uses forward foreign currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to the profit or loss, except for the effective portion of cash flow hedges, which is recognised in other comprehensive income.

For the purpose of hedge accounting, hedges are classified as cash flow hedges when hedging exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment.

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Company wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Hedges which meet the strict criteria for hedge accounting are accounted for as described below:

Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognised directly as other comprehensive income in the cash flow hedge reserve, while any ineffective portion is recognised immediately in the profit or loss as other operating expenses.

Amounts recognised as other comprehensive income are transferred to the profit or loss when the hedged transaction affects profit or loss, such as when the hedged financial income or financial expenses is recognised or when a forecast sales occurs. Where the hedged item is the cost of a non-financial asset or non-financial liability, the amounts recognised as other comprehensive income are transferred to the initial carrying amount of the non-financial asset or liability.
4. Summary of significant accounting policies (continued)

4.20 Derivative financial instruments (continued)

(a) Initial recognition and subsequent measurement (continued)

If the forecast transaction or firm commitment is no longer expected to occur, the cumulative gain or loss previously recognised in equity is transferred to the profit or loss. If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover, or if its designation as a hedged is revoked, any cumulative gain or loss previously recognised in other comprehensive income remains in other comprehensive income until the forecast transaction or firm commitment affects profit or loss.

The Group uses forward currency contracts as hedges of its exposure to foreign currency risk in forecasted transactions and firm commitments. Refer to Note 27 for more details.

4.21 Cash and short-term deposits

Cash and short-term deposits in the statement of financial position comprise cash at banks and on hand and short-term deposits with a maturity of three months or less.

Money market funds are investments in extremely short-term money market securities, undergo only minor value fluctuations and can be readily converted within one day into known amounts of cash.

For the purpose of the statement cash flows, cash and cash equivalents consist of cash and short-term deposits and money market funds as defined above.

4.22 Share capital and share issuance expenses

An equity instrument is any contract that evidences a residual interest in the assets of the Group and of the Company after deducting all of their liabilities. Ordinary shares are equity instruments and are recorded at the proceeds received, net of directly attributable incremental transaction costs.

4.23 Cash dividend and non-cash distribution to equity holders of the Group

The Company recognises a liability to make cash or non-cash distributions to equity holders of the parent when the distribution is authorised and the distribution is no longer at the discretion of the Company. A distribution is authorised when it is approved by the shareholders and a corresponding amount is recognised directly in equity.

Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in profit or loss.

4.24 Provisions

Provisions are recognised when there is a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When it is expected that some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statements of profit or loss net of any reimbursement.
4. Summary of significant accounting policies (continued)

4.24 Provisions (continued)

If the effect of the time value of money is material, provisions are discounted using a current pre tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

4.25 Contingencies

A contingent liability or asset is a possible obligation or asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of uncertain future event(s) not wholly within the control of the Group.

Contingent liabilities and assets are not recognised in the statements of financial position of the Group and of the Company.

4.26 Segment reporting

For management purposes, the Group is organised into operating segments based on their geographical location which are independently managed by the respective segment managers responsible for the performance of the respective segments under their charge. The segment managers report directly to the management of the Company who regularly review the segment results in order to allocate resources to the segments and to assess the segment performance. Additional disclosures on each of these segments are shown in Note 43, including the factors used to identify the reportable segments and the measurement basis of segment information.

5. New and amended standards and interpretations

The accounting policies adopted are consistent with those of the previous financial year except as follows:

On 1 September 2014, the Group and the Company adopted the following new and amended MFRSs and IC Interpretation mandatory for annual financial periods beginning on or after 1 September 2014:

<table>
<thead>
<tr>
<th>Description</th>
<th>Effective for annual periods beginning on or after</th>
</tr>
</thead>
<tbody>
<tr>
<td>Amendments to MFRS 10, MFRS 12 and MFRS 127: Investment Entities</td>
<td>1 January 2014</td>
</tr>
<tr>
<td>Amendments to MFRS 136: Recoverable Amount Disclosures for Non-Financial Assets</td>
<td>1 January 2014</td>
</tr>
<tr>
<td>Amendments to MFRS 139: Novation of Derivatives and Continuation of Hedge Accounting</td>
<td>1 January 2014</td>
</tr>
<tr>
<td>IC Interpretation 21 Levies</td>
<td>1 January 2014</td>
</tr>
<tr>
<td>Amendments to MFRS 119: Defined Benefit Plans: Employee Contributions</td>
<td>1 July 2014</td>
</tr>
<tr>
<td>Annual Improvements to MFRSs 2010 – 2012 Cycle</td>
<td>1 July 2014</td>
</tr>
<tr>
<td>Annual Improvements to MFRSs 2011 – 2013 Cycle</td>
<td>1 July 2014</td>
</tr>
</tbody>
</table>

Adoption of the above standards and interpretation did not have any effect on the financial performance or position of the Group and the Company.
6. New and amended standards issued but not yet effective

The standards and interpretations that are issued but not yet effective up to the date of issuance of the Group and the Company financial statements are discussed below. The Group and the Company intends to adopt these standards if applicable, when they become effective.

<table>
<thead>
<tr>
<th>Description</th>
<th>Effective for annual periods beginning on or after</th>
</tr>
</thead>
<tbody>
<tr>
<td>Annual Improvements to MFRS 2012 – 2014 Cycle</td>
<td>1 January 2016</td>
</tr>
<tr>
<td>Amendments to MFRS 116 and MFRS 138: Clarification of Methods of Depreciation and Amortisation</td>
<td>1 January 2016</td>
</tr>
<tr>
<td>Amendments to MFRS 141 Agriculture: Bearer Plants</td>
<td>1 January 2016</td>
</tr>
<tr>
<td>Amendments to MFRS 10 and MFRS 128: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</td>
<td>1 January 2016</td>
</tr>
<tr>
<td>Amendments to MFRS 11: Accounting for Acquisitions of Interests in Joint Operations</td>
<td>1 January 2016</td>
</tr>
<tr>
<td>Amendments to MFRS 127: Equity Method in Separate Financial Statements</td>
<td>1 January 2016</td>
</tr>
<tr>
<td>Amendments to MFRS 101: Disclosure Initiatives</td>
<td>1 January 2016</td>
</tr>
<tr>
<td>Amendments to MFRS 10, MFRS 12 and MFRS 128: Investment Entities: Applying the Consolidation Exception</td>
<td>1 January 2016</td>
</tr>
<tr>
<td>MFRS 14 Regulatory Deferral Accounts</td>
<td>1 January 2016</td>
</tr>
<tr>
<td>MFRS 15 Revenue from Contracts with Customers</td>
<td>1 January 2016</td>
</tr>
<tr>
<td>MFRS 9 Financial Instruments</td>
<td>1 January 2018</td>
</tr>
</tbody>
</table>

The directors expect that the adoption of the above standards and interpretations will have no material impact on the financial statements in the period of initial application except as disclosed below:

**Amendments to MFRS 127: Equity Method in Separate Financial Statements**

The amendments will allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associate in their separate financial statements. Entities already applying MFRS and electing to change to the equity method in its separate financial statements will have to apply this change retrospectively. For first-time adopters of MFRS electing to use the equity method in its separate financial statements, they will be required to apply this method from the date of transition to MFRS. The amendments are effective for annual periods beginning on or after 1 January 2016, with early adoption permitted.

**MFRS 15 Revenue from Contracts with Customers**

MFRS 15 establishes a new five-step models that will apply to revenue arising from contracts with customers. MFRS 15 will supersede the current revenue recognition guidance including MFR 118 Revenue, MFRS 111 Construction Contracts and the related interpretations when it becomes effective.

The core principle of MFRS 15 is that an entity should recognise revenue which depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

Under MFRS 15, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

Either a full or modified retrospective application is required for annual periods beginning on or after 1 January 2018 with early adoption permitted. The Group is currently assessing the impact of MFRS 15 and plans to adopt the new standard on the required effective date.
6. New and amended standards issued but not yet effective (continued)

MFRS 9 Financial Instruments

In November 2014, MASB issued the final version of MFRS 9 Financial Instruments which reflects all phases of the financial instruments project and replaces MFRS 139 Financial Instruments: Recognition and Measurement and all previous versions of MFRS 9. The standard introduces new requirements for classification and measurement, impairment and hedge accounting. MFRS 9 is effective for annual periods beginning on or after 1 January 2018, with early application permitted. Retrospective application is required, but comparative information is not compulsory. The adoption of MFRS 9 will have an effect on the classification and measurement of the Group’s financial assets, but no impact on the classification and measurement of the Group’s financial liabilities.

7. Significant accounting judgments, estimates and assumptions

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

7.1 Judgments made in applying accounting policies

In the process of applying the Group’s accounting policies, management has not made any critical judgments, apart from those involving estimations, which could have a significant effect on the amounts recognised in the financial statements.

Classification between Investment properties and property, plant and equipment

The Group has developed certain criteria based on MFRS 140 in making judgment whether a property qualifies as an investment property. Investment property is a property held to earn rentals or for capital appreciation or both.

Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately (or leased out separately under a finance lease), the Group would account for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgment is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as investment property.

7.2 Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.
7. Significant accounting judgments, estimates and assumptions (continued)

7.2 Estimates and assumptions (continued)

(a) Impairment of goodwill

Goodwill is tested for impairment annually and at other times when such indicators exist. This required an estimation of the value in use of the cash-generating units to which goodwill is allocated.

When value in use calculations are undertaken, management must estimate future cash flows from the cash-generating unit and choose a suitable discount rate in order to calculate the present values of those cash flows. Further details of the carrying value, the key assumptions applied in the impairment assessment and sensitivity analysis to changes in the assumptions are disclosed in Note 23.

(b) Impairment of loans and receivables

The impairment loss on trade receivables of the Group is based on the evaluation of collectability and ageing analysis of the receivables and on management’s judgment. A considerable amount of judgement is required in assessing the ultimate realisation of these receivables, including the current credit-worthiness and the past collection history on each receivables. If the financial conditions of the receivables of the Group were to deteriorate, additional provision may be required.

(c) Useful lives of plant and equipment

The cost of plant and equipment for the manufacture of gloves is depreciated on a straight-line basis over the assets’ estimated economic useful lives. Management estimates the useful lives of these plant and equipment to be 10 years. These are common life expectancies applied in the gloves manufacturing industry. Changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

(d) Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded.

The Group establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective countries in which it operates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the Group and its respective subsidiaries’ domicile. As the Group assesses the probability for litigation and subsequent cash outflow with respect to taxes as remote, no contingent liability has been recognised.

Deferred tax assets are recognised for all unutilised tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the losses and credits can be utilised. Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

The amount of deferred tax assets recognised in respect of unutilised tax losses, capital allowances, export allowances and reinvestment allowances and the amounts of such losses and allowances for which deferred tax assets were not recognised are disclosed in Note 21.

</tbody>
</table>

Domestic income tax is calculated at the Malaysian statutory tax rate of 25% (2014: 25%) of the estimated assessable profit for the year. The Malaysian statutory tax rate will be reduced to 24% from the current year’s rate of 25%, effective year of assessment 2016. The computation of deferred tax as at 31 August 2015 has reflected these changes.

Taxation for other jurisdictions is calculated at the rates prevailing in the respective jurisdictions.

The above reconciliation is prepared by aggregating separate reconciliations for each national jurisdiction.
15. Earnings per share

Basic earnings per share amounts are calculated by dividing profit for the year, net of tax, attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the financial year, excluding treasury shares held by the Company.

Diluted earnings per share amounts are calculated by dividing profit for the year, net of tax, attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the financial year plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

The following reflects the profit and share data used in the computation of basic and diluted earnings per share for the years ended 31 August 2015 and 2014:

<table>
<thead>
<tr>
<th></th>

(a) Disposal of a subsidiary in prior year

On 13 June 2014, the Group disposed of its 100% equity interest in Top Glove (Zhangjiagang) Co. Ltd. for a total consideration of RM21,510,000.

The disposal had the following effects on the financial position of the Group as at the end of the year:

| Property, plant and equipment | 10,932 |
| Land use rights               | 1,633  |
| Cash and bank balances        | 490    |
| Trade and other payables      | (2,107) |
| Net assets disposed           | 10,848 |
| Attributable goodwill (Note 23)| 2,378  |
| Transfer from foreign exchange reserve | (2,353) |
| Total disposal proceeds       | 10,973 |
| Gain on disposal to the Group | 21,510 |
| Disposal proceeds settled by: |        |
| Cash                         | 21,510 |
| Cash inflow arising from disposal: |
| Cash consideration           | 21,510 |
| Cash and bank balances of the subsidiary disposed | (490) |
| Net cash inflow to the Group | 21,020 |

(b) As at reporting date, the Group did not have any material non-controlling interests.

<td>22,805</td>
</tr>
</tbody>
</table>

Key assumptions used in value-in-use calculations

The recoverable amount of a CGU is determined based on value-in-use calculations using cash flow projections based on financial budgets approved by management covering a five years period. The key assumptions used for value-in-use calculations are as follows:

<table>
<thead>
<tr>
<th>Gross Margin 2015</th>
<th>Gross Margin 2014</th>
<th>Discount Rate 2015</th>
<th>Discount Rate 2014</th>
</tr>
</thead>
<tbody>
<tr>
<td>Top Glove Medical (Thailand) Co. Ltd.</td>
<td>10%</td>
<td>10%</td>
<td>5%</td>
</tr>
<tr>
<td>B Tech Industry Co. Ltd.</td>
<td>7%</td>
<td>7%</td>
<td>5%</td>
</tr>
<tr>
<td>GMP Medicare Sdn. Bhd.</td>
<td>16%</td>
<td>20%</td>
<td>5%</td>
</tr>
</tbody>
</table>

The following describes each key assumption on which management has based its cash flow projections to undertake impairment testing of goodwill:

(i) Budgeted gross margin

The basis used to determine the value assigned to the budgeted gross margins is the average gross margins achieved in the year immediately before the budgeted year increased for expected efficiency improvements.

(ii) Discount rate

The discount rates used are post-tax and reflect specific risks relating to the relevant segments.

The Group believes that any reasonably possible change in the above key assumptions applied are not likely to materially cause recoverable amount to be lower than its carrying amount.
24. Inventories

<table>
<thead>
<tr>
<th></th>
<th>Group 2015 RM'000</th>
<th>Group 2014 RM'000</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Cost</strong></td>

</tbody>
</table>

(a) Trade receivables

Trade receivables are non-interest bearing and are generally on 30 to 90 days (2014: 30 to 90 days) terms. Other credit terms are assessed and approved on a case-by-case basis. They are recognised at their original invoice amounts which represent their fair values on initial recognition.
25. Trade and other receivables (continued)

(a) Trade receivables (continued)

Aging analysis of trade receivables

The ageing analysis of the Group’s trade receivables is as follows:

<table>
<thead>
<tr>

<td>975</td>
<td>975</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td>49,442</td>
<td>43,412</td>
</tr>
</tbody>
</table>

Receivables that are neither past due nor impaired

Trade and other receivables that are neither past due nor impaired are creditworthy debtors with good payment records with the Group and mostly are regular customers that have been transacting with the Group.

None of the Group’s trade receivables that are neither past due nor impaired have been renegotiated during the financial year.

Receivables that are past due but not impaired

The Group has trade receivables amounting to RM49,442,000 (2014: RM43,412,000) that are past due at the reporting date but not impaired. These receivables are unsecured in nature.

Receivables that are impaired

The Group’s trade receivables that are impaired at the reporting date and the movement of the allowance accounts used to record the impairment are as follows:

<table>
<thead>
<tr>
<th></th>
<th>2015</th>
<th>2014</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>RM’000</td>
<td>RM’000</td>

<tr>
<td>Trade receivables-nominal amounts</td>
<td>975</td>
<td>2,802</td>
</tr>
<tr>
<td>Less: Allowance for impairment loss</td>
<td>(975)</td>
<td>(975)</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td>-</td>
<td>1,827</td>
</tr>
</tbody>
</table>
25. Trade and other receivables (continued)

(a) Trade receivables (continued)

Movements in the allowance accounts:

<table>
<thead>
<tr>
<th></th>
<th>2015 RM’000</th>
<th>2014 RM’000</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 September/31 August</td>
<td>975</td>
<td>975</td>
</tr>
</tbody>
</table>

Trade receivables that are individually determined to be impaired at the reporting date relate to debtors are in significant financial difficulties and have defaulted on payments. These receivables are not secured by any collateral or credit enhancements.

(b) Related party balances

Amounts due from subsidiaries are unsecured, non-interest bearing and are repayable upon demand.

26. Other current assets

At 31 August 2015, the Group held forward currency contracts designated as hedges of expected future sales to customers for which the Group has firm commitments. Forward currency contracts are used to hedge the Company’s sales denominated in USD and EURO for which firm commitments existed at the reporting date, extending to January 2016 (2014: December 2014).

During the financial year, the Group recognised a loss of RM11,873,000 (2014: gain of RM2,394,000) in the profit or loss arising from ineffectiveness recognised in the profit or loss.

Obligations under finance leases

This obligation was secured by a charge over the leased asset as disclosed in Note 16. The prior year average discount rate implicit in the leases was 3.45% per annum.

3.25% p.a. fixed rate USD bank loan

The loan is secured by way of fixed charges over certain property, plant and equipment as disclosed in Note 16.

Other secured bank loans

The loans are secured by way of charges over investment securities and cash at banks of the Group as disclosed in Note 22 and 28.
30. Trade and other payables

</table>

(a) Trade payables

These amounts are non-interest bearing. The normal trade credit term granted to the Group ranges from 30 to 90 days (2014: 30 to 90 days).

(b) Other payables

These amounts are non-interest bearing. Other payables are normally settled on an average term of 30 to 90 days (2014: 30 to 90 days).

(c) Amounts due to subsidiaries

These amounts are unsecured, non-interest bearing and repayable on demand.

31. Other current liabilities

These amounts represent advances received from customers for goods purchased.
32. Share capital

</tr>
</tbody>
</table>

34. Treasury shares

This amount relates to the acquisition cost of treasury shares net of the proceeds received on their subsequent sale or issuance.

The shareholders of the Company, by an ordinary resolution passed in an annual general meeting held on 8 January 2015, renewed their approval for the Company’s plan to repurchase its own shares. The Directors of the Company are committed in enhancing the value of the Company to its shareholders and believe that the Share Buy Back can be applied in the best interests of the Company and its shareholders.

During the financial year, the Company repurchased 3,324,000 of its issued ordinary shares from the open market at the average price of RM4.43 per share. The total consideration paid for the repurchase including transaction costs was RM14,722,000. The shares repurchased are being held as treasury shares in accordance with Section 67A of the Companies Act 1965.

Of the total 624,184,000 issued and fully paid ordinary shares as at 31 August 2015, 3,324,000 are held as treasury shares by the Company. As at 31 August 2015, the number of outstanding ordinary shares in issue and fully paid is therefore 620,860,000 ordinary shares of RM0.50 each.

35. Other reserves (continued)

(a) Foreign exchange reserve

The foreign currency translation reserve is used to record exchange differences arising from the translation of the financial statements of foreign operations whose functional currencies are different from that of the Group’s presentation currency. It is also used to record the exchange differences arising from monetary items which form part of the Group’s net investment in foreign operations, where the monetary item is denominated in either the functional currency of the reporting entity or the foreign operation.

(b) Legal reserve

This represents a general reserve provided for in respect of subsidiaries incorporated in the People’s Republic of China and Thailand.

Under the Wholly Foreign Owned Enterprise (“WFOE”) Law in the People’s Republic of China, at least 10% of the net profit after taxation in each financial year must be credited to this reserve, until it reaches 50% of the registered paid up capital of the subsidiary.

Under the Civil and Commercial Code in Thailand, a company is required to set aside a statutory reserve equal to at least 5% of its net profit each time when the company pays out a dividend, until it reaches 10% of the registered share capital of the company.

(c) Share option reserve

The share option reserve represents the equity-settled share options granted to employees. This reserve is made up of the cumulative value of services received from employees recorded on grant of share options.

(d) Fair value adjustment reserve

Fair value adjustment reserve represents the cumulative fair value changes, net of tax, of available-for-sale financial assets until they are disposed of or impaired.

(e) Cash flow hedge reserve

The cash flow hedge reserve represents the cumulative portion of gains and losses arising on changes in fair value of hedging instruments entered into for cash flow hedges. The cumulative deferred gain or loss arising on changes in the fair value of the hedging instruments that are recognised and accumulated under the heading of cash flow hedging reserve will be reclassified to profit or loss only when the hedged transaction affects the profit or loss, or is included as a basis adjustment to the non-financial hedged item, consistent with the relevant accounting policy.

36. Retained earnings

The Company may distribute dividends out of its entire retained earnings as at 31 August 2015 and 2014 under the single tier system.
37. Employee Share Options Scheme (ESOS)

The Company ESOS is governed by the By-Laws which was approved by the shareholders at the Extraordinary General Meeting held on 9 January 2008 and became effective on 1 August 2008.

The main features of the ESOS are as follows:

(a) The ESOS shall be in force for a period of ten years from the date of the receipt of the last of the requisite approvals.

(b) Eligible persons are employees of the Group (including executive directors) who have been confirmed in the employment of the Group and have served for at least one year before the date of the offer. The eligibility for participation in the ESOS shall be at the discretion of the Options Committee appointed by the Board of Directors.

(c) The total number of shares to be issued under the ESOS shall not exceed in aggregate 15% of the issued and paid up share capital of the Company at any point of time during the tenure of the ESOS.

(d) The option price for each share shall be the 5-days weighted average market price of the underlying shares at the time the ESOS Options are granted, with either a premium or a discount of not more than ten percent (10%), or the par value of the ordinary shares of the Company of RM0.50, whichever is higher.

(e) No option shall be granted for less than 100 shares to any eligible employee.

(f) An option granted under the ESOS shall be capable of being exercised by the grantee by notice in writing to the Company commencing from the vest date but before the expiry on 1 August 2018.

(g) All new ordinary shares issued upon exercise of the options granted under the ESOS will rank pari passu in all respect with the existing ordinary shares of the Company other than as may be specified in a resolution approving the distribution of dividends prior to their exercise dates.

(h) No eligible person shall participate at any time in more than one share option scheme implemented by any company within the Group unless otherwise approved by the Options Committee.

(i) The options shall not carry any right to vote at a general meeting of the Company.
37. Employee Share Options Scheme (ESOS) (continued)

The terms of share options outstanding as at end of the financial year are as follows:

37. Employee Share Options Scheme (ESOS) (continued)

Fair value of share options granted during the year

The fair value of share options granted during the year were estimated by using a binomial model, taking into account the terms and conditions upon which the options were granted. The fair value of share options measured at grant date and the assumptions are as follows:

<table>
<thead>
<tr>
<th>Date</th>
<th>2015</th>
<th>2014</th>
</tr>
</thead>
<tbody>
<tr>
<td>2 August 2014</td>
<td>0.85, 0.88, 0.89, 0.91 &amp; 0.92</td>
<td></td>
</tr>
<tr>
<td>Weighted average share price (RM)</td>
<td>-</td>
<td>5.70</td>
</tr>
<tr>
<td>Weighted average exercise price (RM)</td>
<td>-</td>
<td>4.40</td>
</tr>
<tr>
<td>Expected volatility (%)</td>
<td>-</td>
<td>25.41</td>
</tr>
<tr>
<td>Expected life (years)</td>
<td>-</td>
<td>4.00</td>
</tr>
<tr>
<td>Risk free rate (%)</td>
<td>-</td>
<td>3.54</td>
</tr>
<tr>
<td>Expected dividend yield (%)</td>
<td>-</td>
<td>3.35</td>
</tr>
</tbody>
</table>

The expected life of the options is based on historical data and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome. No other features of the option were incorporated into the measurement of fair value.

38. Related party transactions

(a) Sales and purchase of goods

In addition to the related party information disclosed elsewhere in the financial statements, the following significant transactions between the Group and related parties took place at terms agreed between the parties during the financial year:

<table>
<thead>
<tr>

39. Commitments

(a) Capital commitments

Capital expenditure as at the reporting date is as follows:

<table>
<thead>
<tr>
<th></th>
<th>Group 2015</th>
<th>Group 2014</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>RM’000</td>
<td>RM’000</td>

</tr>
<tr>
<td>equipment:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Approved and contracted for</td>
<td>80,026</td>
<td>107,154</td>
</tr>
</tbody>
</table>

(b) Operating lease arrangements

In addition to the land use rights disclosed in Note 17, the Group has entered into commercial leases on certain office equipment. These leases have an average tenure of between one and five years.

Future minimum rentals payable under non-cancellable operating leases (excluding land use rights) at the reporting date are as follows:

<table>
<thead>
<tr>
<th></th>
<th>Group 2015</th>
<th>Group 2014</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>RM’000</td>
<td>RM’000</td>
</tr>
<tr>
<td>Future minimum rentals payments:</td>
<td></td>

<tr>
<td>Not later than 1 year</td>
<td>862</td>
<td>851</td>
</tr>
<tr>
<td>Later than 1 year and not later than 2 years</td>
<td>203</td>
<td>665</td>
</tr>
<tr>
<td>Later than 2 years and not later than 5 years</td>
<td>157</td>
<td>219</td>
</tr>
<tr>
<td></td>
<td>1,222</td>
<td>1,735</td>
</tr>
</tbody>
</table>
39. Commitments (continued)

(c) Finance lease commitments

The Group has finance leases for certain items of property, plant and equipment as disclosed in Note 16. Future minimum lease payments under finance leases together with the present value of the net minimum lease payments are as follows:

<table>
<thead>
<tr>
<th></th>
<th>Group 2015 RM’000</th>
<th>2014 RM’000</th>
</tr>
</thead>
<tbody>
<tr>
<td>Minimum lease payments:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Not later than 1 year</td>
<td>-</td>
<td>19</td>
</tr>
<tr>
<td>Total minimum lease payments</td>
<td>-</td>
<td>19</td>
</tr>
<tr>
<td>Less: Amount representing finance charges</td>
<td>-</td>
<td>(1)</td>
</tr>
<tr>
<td>Present value of minimum lease payables</td>
<td>-</td>
<td>18</td>
</tr>
<tr>
<td>Present value of payments:</td>
<td></td>

<td>18</td>
</tr>
<tr>
<td>Present value of minimum lease payments</td>
<td>-</td>
<td>18</td>
</tr>
<tr>
<td>Less: Amount due within 12 months (Note 29)</td>
<td>-</td>
<td>(18)</td>
</tr>
<tr>
<td>Amount due after 12 months (Note 29)</td>
<td>-</td>
<td>-</td>
</tr>
</tbody>
</table>

40. Fair value of financial instruments

Determination of fair value

Financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value

The following are classes of financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value:

<table>
<thead>
<tr>
<th>Note</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Trade and other receivables</td>
<td>25</td>
</tr>
<tr>
<td>Loans and borrowings (current)</td>
<td>29</td>
</tr>
<tr>
<td>Loans and borrowings (non-current)</td>
<td>29</td>
</tr>
<tr>
<td>Trade and other payables</td>
<td>30</td>
</tr>
</tbody>
</table>

The carrying amounts of these financial assets and liabilities are reasonable approximation of fair values, either due to their short-term nature or that they are floating rate instruments that are re-priced to market interest rates on or near the reporting date.
40. Fair value of financial instruments (continued)

The fair values of loans and borrowings are estimated by discounting expected future cash flows at market incremental lending rate for similar types of lending, borrowing or leasing arrangements at the reporting date.

Quoted debt securities
Fair value is determined directly by reference to their published market bid price at the reporting date.

Derivatives
Forward currency contracts are valued using a valuation technique with market observable inputs. The most frequently applied valuation techniques include forward pricing, using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates.

Investment properties
For investment properties, the Group used the fair value which has been determined based on prior transaction and third party pricing information.

Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Group’s assets and liabilities as at reporting date:

<table>
<thead>
<tr>
<th>Group As at 31 August 2015</th>
<th>Quoted prices in active market (Level 1) RM’000</th>
<th>Significant observable inputs (Level 2) RM’000</th>
<th>Significant unobservable inputs (Level 3) RM’000</th>

</table>

During the reporting period ended 31 August 2015 and 2014, there were no transfers between Level 1 and Level 2 fair value measurements.

41. Financial risk management objectives and policies

Financial liabilities comprise loans and borrowings, trade and other payables, and financial guarantee contracts. The main purpose of these financial liabilities is to finance the Group’s and the Company’s operations and to provide guarantees to support their operations. Financial assets include trade and other receivables, debts securities and cash and short-term deposits that derive directly from their operations.

The Group is exposed to market risk, credit risk and liquidity risk. The Group’s senior management oversees the management of these risks and ensures that the Group’s financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group’s policies and risk objectives. All derivative activities for risk management purposes are carried out by senior management who have the appropriate skills, experience and supervision. It is the Group’s policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.
41. Financial risk management objectives and policies (continued)

(a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises interest rate risk, foreign exchange currency risk and other price risk such as equity price risk. Financial instruments affected by market risk include trade and other receivables, trade and other payables, loans and borrowings, deposits, available-for-sales and derivative financial instruments.

(b) Credit risk

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligations. The Group’s and the Company’s exposure to credit risk arises primarily from trade and other receivables. For other financial assets (including investment securities, cash and bank balances and derivatives), the Group and the Company minimise credit risk by dealing exclusively with high credit rating counterparties.

The Group’s objective is to seek continual revenue growth while minimising losses incurred due to increased credit risk exposure. The Group trades only with recognised and creditworthy third parties. It is the Group’s policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis with the result that the Group’s exposure to bad debts is not significant.

Exposure to credit risk

At the reporting date, the Group’s and the Company’s maximum exposure to credit risk is represented by the carrying amount of each class of financial assets recognised in the statements of financial position, including derivatives with positive fair values.

Credit risk concentration profile

The Group has no significant concentration of credit risk that may arise from exposure to a single debtor or to groups of debtors.

Financial assets that are neither past due nor impaired

Information regarding trade and other receivables that are neither past due nor impaired is disclosed in Note 25. Deposits with banks and other financial institutions, debt securities and derivatives that are neither past due nor impaired are placed with or entered into with reputable financial institutions or companies with high credit ratings and no history of default.

Financial assets that are either past due or impaired

Information regarding financial assets that are either past due or impaired is disclosed in Note 25.

(c) Liquidity risk

Liquidity risk is the risk that the Group or the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Group’s and the Company’s exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Group’s and the Company’s objective is to maintain a balance between continuity of funding and flexibility through the use of stand-by credit facilities.
41. Financial risk management objectives and policies (continued)

(c) Liquidity risk (continued)

Analysis of financial instruments by remaining contractual maturities

The table below summarises the maturity profile of the Group’s and the Company’s liabilities at the reporting date based on contractual undiscounted repayment obligations.

<table>

* At the reporting date, the counterparties to the bank guarantees do not have a right to demand cash as the default has not occurred. Accordingly, financial guarantees under the scope of MFRS 139 are not included in the above maturity profile analysis.
41. Financial risk management objectives and policies (continued)

(d) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group’s and the Company’s financial instruments will fluctuate because of changes in market interest rates.

The Group’s and the Company’s exposure to interest rate risk arises primarily from their loans and borrowings. The Group manages its interest rate exposure by maintaining a prudent mix of fixed and floating rate borrowings. The Group actively reviews its debt portfolio, taking into account the investment holding period and nature of its assets. This strategy allows it to capitalise on cheaper funding in a low interest rate environment and achieve a certain level of protection against rate hikes.

Sensitivity analysis for interest rate risk

At the reporting date, if interest rates had been 10 basis point lower/higher, all other variables held constant, the Group’s profit before tax would have been RM633,000 (2014: RM178,000) higher/lower, arising mainly as a result of lower/higher interest expense on floating rate loans and borrowings. The assumed movement in basis points for interest rate sensitivity analysis is based on the currently observable market environment.

(e) Market price risk

The Group’s quoted investment securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the market price risk through diversification and by placing limits on individual and total debt instruments. Reports on the investment portfolio are submitted to the Company’s senior management on a regular basis. The Company’s Board of Directors reviews and approves all investment decisions.

At the reporting date, the exposure to quoted investment securities at fair value was disclosed in Note 22.

Sensitivity analysis for equity price risk

The following table demonstrates the sensitivity of the Group’s debt investments to reasonably possible price movements in investments classified as available-for-sale at the reporting date:

<table>
<thead>
<tr>
<th>Group</th>
<th>2015 RM'000</th>
<th>2014 RM'000</th>

</tr>
<tr>
<td>- weakened 5% (2014: 5%)</td>
<td>(26,398)</td>
<td>(4,820)</td>
</tr>
</tbody>
</table>

(f) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Group has transactional currency exposures mainly arising from revenue that are denominated in a currency other than the respective functional currencies of the Group entities, primarily RM, Thai Baht (“Baht”), Chinese Rennminbi (“RMB”) and Australian Dollars (“AUD”). The foreign currencies in which these transactions are denominated are mainly United States Dollars (“USD”) and Euro.
41. Financial risk management objectives and policies (continued)

(f) Foreign currency risk (continued)

The net unhedged financial assets and financial liabilities of the Group companies that are not
denominated in their functional currencies are as follows:

42. Capital management

The primary objective of the Group’s capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise shareholder value.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the years ended 31 August 2015 and 31 August 2014.

As disclosed in Note 35(b), subsidiaries of the Group incorporated in the People’s Republic of China and Thailand are required to set aside a statutory reserve fund under local regulations. This externally imposed capital requirement has been complied with by the above-mentioned subsidiaries for the financial years ended 31 August 2015 and 31 August 2014.

The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group includes within net debt, loans and borrowings, trade and other payables, less cash and bank balances. Capital includes equity attributable to the owners of the parent less the fair value adjustment reserve and the above-mentioned restricted statutory reserve fund.

43. Segment information

For management purposes, the Group is organised into business units based on their geographical areas, and has five reportable operating segments.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which, in certain respects as explained in the table below, is measured differently from operating profit or loss in the consolidated financial statements. Group financing (including finance costs), income taxes and share of results of associate are managed on a group basis and are not allocated to operating segments.

The directors are of the opinion that all inter-segment transactions have been entered into in the normal course of business and have been established on negotiated and mutually agreed terms.

| - Final single tier dividend for 2013: 9.00 sen per share | -           | 55,848      |
| - First interim single tier dividend for 2014: 7.00 sen per share | -           | 43,444      |
| **Total**             | **104,984** | **99,292**  |
44. Dividends (continued)

At the forthcoming Annual General Meeting, a single tier final dividend of 24% on 620,859,762 ordinary shares amounting to RM74,503,171 (12.00 sen per share) in respect of the financial year ended 31 August 2015 will be proposed for shareholders' approval. The financial statements for the current financial year do not reflect this proposed dividend. Such dividend, if approved by the shareholders, will be accounted for in equity as an appropriation of retained earnings in the financial year ending 31 August 2016.

45. Contingent liabilities

A nominal amount of RM387,000,000 (2014: RM146,000,000) relating to corporate guarantees provided by the Company to banks for its subsidiaries' loans and borrowings.

The fair value of the corporate guarantees granted by the Company to banks in respect of loans and borrowings obtained by its subsidiaries is not material as the difference in borrowing rates charged by the banks is not significant in the absence of such guarantees.

46. Subsequent events

On 15 October 2015, the Company proposed to undertake the following corporate exercises:

(i) a bonus issue of up to 630,697,962 new ordinary shares of RM0.50 each in the Company on the basis of one new ordinary share of RM0.50 each for every one existing ordinary share held;

(ii) the establishment of an employees' share grant plan of up to 15% of the issued and paid-up share capital of the Company (excluding treasury shares) for the eligible employees and executive directors of the Company and its subsidiaries;

(iii) an increase in the authorised share capital of the Company from RM400,000,000 to RM800,000,000 through the creation of 800,000,000 shares of RM0.50 each; and

(iv) amendments to the Memorandum and Articles of Association of the Company to facilitate the implementation of the proposed increase in authorised share capital.

The above proposals are subject to the approvals by the relevant authorities and the shareholders of the Company in general meeting.

47. Authorisation of financial statements for issue

The financial statements for the year ended 31 August 2015 were authorised for issue in accordance with a resolution of the directors on 30 October 2015.
48. Supplementary information – Breakdown of realised and unrealised profits and losses

The breakdown of the retained earnings of the Group and of the Company as at 31 August 2015 into realised and unrealised profits and losses is presented in accordance with the directive issued by Bursa Malaysia Securities Berhad dated 25 March 2010 and prepared in accordance with Guidance on Special Matter No. 1, Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Malaysia Securities Berhad Listing Requirements, as issued by the Malaysian Institute of Accountants.

NOTICE OF THE SEVENTEENTH ANNUAL GENERAL MEETING

NOTICE IS HEREBY GIVEN THAT the Seventeenth Annual General Meeting ("17th AGM") of the Company will be held at TG Grand Ballroom 2, Level 9, Top Glove Tower of 16, Persiaran Setia Dagang, Setia Alam, Sekayen U13, 40170 Shah Alam, Selangor Darul Ehsan, Malaysia on Wednesday, 6 January 2016 at 11:30 a.m. for the following purposes:

AGENDA

1. To receive the Audited Financial Statements for the financial year ended 31 August 2015 together with the Reports of the Directors and the Auditors thereon.

2. To approve the declaration of a Single Tier Final Dividend of 12 sen per share (24%) and Special Single Tier Final Dividend of 3 sen per share (6%) for the financial year ended 31 August 2015.

3. To approve the payment of Directors’ Fees for the financial year ended 31 August 2015.

4. To re-elect the following Directors who retire pursuant to Article 94 of the Company’s Articles of Association and being eligible, have offered themselves for re-election:
   (a) Lee Kim Meow;
   (b) Puan Sri Tong Siew Bee; and
   (c) Lim Hooi Sin.

5. To re-elect the following Directors who retire pursuant to Article 100 of the Company’s Articles of Association and being eligible, have offered themselves for re-election:
   (a) Datuk Noripah Binti Kamso; and
   (b) Sharmila Sekarajasekaran.

6. To pass the following resolution pursuant to Section 129(6) of the Companies Act, 1965:
   “That Tan Sri Dato’ Seri Utama Arshad Bin Ayub who has attained the age of over seventy (70) years, be and is hereby re-appointed as Director of the Company and to hold office until the conclusion of the next Annual General Meeting.”

7. To re-appoint Messrs. Ernst & Young as Auditors of the Company until the conclusion of the next Annual General Meeting and to authorise the Directors to fix their remuneration.

8. As Special Business

To consider and, if thought fit, with or without any modification, to pass the following resolutions which will be proposed as Ordinary Resolutions:

(a) Ordinary Resolution No. 1

Authority To Issue Shares Pursuant To Section 132D Of The Companies Act, 1965

“THAT subject to Section 132D of the Companies Act, 1965 and approvals of the relevant governmental/regulatory authorities, the Directors be and are hereby empowered to issue and allot shares in the Company, at any time to such persons and upon such terms and conditions and for such purposes as the Directors may, in their absolute discretion, deem fit, provided that the aggregate number of shares issued pursuant to this resolution does not exceed ten per centum (10%) of the issued and paid-up share capital of the Company for the time being and the Directors be and are also empowered to obtain the approval for the listing of and quotation for the additional shares so issued on Bursa Malaysia Securities Berhad; AND THAT such authority shall commence immediately upon the passing of this resolution and continue to be in force until the conclusion of the next Annual General Meeting of the Company.”

(b) Ordinary Resolution No. 2

Retention of Independent Director

“THAT subject to the passing of Resolution No. 8, approval be and is hereby given to retain Tan Sri Dato’ Seri Utama Arshad Bin Ayub who has served as Independent Non-Executive Director of the Company for more than nine (9) years in accordance with Malaysian Code on Corporate Governance 2012.”

(c) Ordinary Resolution No. 3

Proposed Renewal of Authority For Share Buy-Back

“THAT subject to the Companies Act, 1965, the Company’s Memorandum and Articles of Association, Bursa Malaysia Securities Berhad (“Bursa Securities”) Main Market Listing Requirements and the approvals of all relevant governmental and/or regulatory authority (if any), the Company be and is hereby authorised to purchase such amount of ordinary shares of RM0.50 each in the Company (“Proposed Share Buy-Back”) as may be determined by the Board from time to time through Bursa Securities upon such terms and conditions as the Board may deem fit and expedient in the interest of the Company provided that the aggregate number of shares purchased pursuant to this resolution shall not exceed ten per centum (10%) of the total issued and paid-up share capital of the Company;

AND THAT the maximum amount of funds to be utilised for the purpose of the Proposed Share Buy-Back shall not exceed the aggregate retained profits or share premium account of the Company based on its audited financial statements for the financial year ended 31 August 2015 of RM251,206,000.00 and RM200,302,000.00 respectively;

AND THAT at the discretion of the Board, the shares of the Company to be purchased are proposed to be cancelled and/or retained as treasury shares and/or distributed as dividends and/or resold on Bursa Securities;

AND THAT such authority shall commence immediately upon passing of this resolution until:

(i) the conclusion of the next Annual General Meeting of the Company following the General Meeting at which such resolution was passed at which time it will lapse unless by ordinary resolution passed at that Meeting, the authority is renewed, either unconditionally or subject to conditions;

(ii) the expiration of the period within which the next Annual General Meeting after that date is required by law to be held; or

(iii) the authority is revoked or varied by ordinary resolution passed by the shareholders of the Company in General Meeting,

whichever is the earlier;

AND THAT the Board be and is hereby authorised to take such steps to give full effect to the Proposed Share Buy-Back with full power to assent to any conditions, modifications, variations and/or amendments as may be imposed by the relevant authorities and/or to do all such acts and things as the Board may deem fit and expedient in the best interest of the Company.”

9. To transact any other ordinary business for which due notice shall have been given.
NOTICE OF DIVIDEND ENTITLEMENT

NOTICE IS ALSO HEREBY GIVEN THAT a Single Tier Final Dividend of 12 sen per share and Special Single Tier Final Dividend of 3 sen per share in respect of the financial year ended 31 August 2015 will be payable on 28 January 2016 to depositors who are registered in the Record of Depositors at the close of business on 13 January 2016, if approved by members at the forthcoming Seventeenth AGM on 6 January 2016.

A Depositor shall qualify for entitlement only in respect of:

(a) Shares transferred into the Depositor’s Securities Account before 4:00 p.m. on 13 January 2016 in respect of ordinary transfers; and

(b) Shares bought on Bursa Malaysia Securities Berhad (“Bursa Securities”) on a cum entitlement basis according to the Rules of Bursa Securities.

By Order of the Board

CHUA SIEW CHUAN                                  CHIN MUN YEE                                  NGIAN YOKE FUNG
(Chairman)                                      (Management)                                (Management)
Chartered Secretary                             Chartered Secretary                         Chartered Secretary

SHAH ALAM
16 November 2015

NOTES TO THE NOTICE OF THE SEVENTEENTH ANNUAL GENERAL MEETING:

Proxy

1. In respect of deposited securities, only members whose names appear in the Record of Depositors on 28 December 2015 (General Meeting Record of Depositors) shall be eligible to attend the Meeting.

2. A member of the Company entitled to attend and vote at the Meeting is entitled to appoint one or more proxies to attend and vote in his stead. A proxy may but need not be a member of the Company and a member may appoint any person to be his proxy and the provisions of Sections 149(1) (a), (b), (c) and (d) of the Companies Act, 1965 shall not apply to the Company. There shall be no restriction as to the qualification of the proxy. A proxy appointed to attend and vote at the Meeting shall have the same rights as the member to speak at the Meeting.

3. Where a holder appoints two or more proxies, the appointment shall be invalid unless he specifies the proportion of his shareholdings to be represented by each proxy.

4. The instrument appointing a proxy shall be in writing under the hand of the appointor or of his attorney duly authorised in writing or, if the appointor is a corporation, either under its seal or under the hand of an officer or attorney duly authorised.

5. Where a member of the Company is an exempt authorised nominee which holds ordinary shares in the Company for multiple beneficial owners in one securities account (“omnibus account”), there is no limit to the number of proxies which the exempt authorised nominee may appoint in respect of each omnibus account it holds.

6. The instrument appointing a proxy must be deposited at the office of the Share Registrar, Securities Services (Holdings) Sdn Bhd at Level 7, Menara Milenium, Jalan Damansara, Pusat Bandar Damansara, Damansara Heights, 50490 Kuala Lumpur, Wilayah Persekutuan not less than 48 hours before the time appointed for holding the Meeting or at any adjournment thereof.

By Order of the Board

CHUA SIEW CHUAN                                  CHIN MUN YEE                                  NGIAN YOKE FUNG
(Chairman)                                      (Management)                                (Management)
Chartered Secretary                             Chartered Secretary                         Chartered Secretary

SHAH ALAM
16 November 2015
Audited Financial Statements for financial year ended 31 August 2015

7. The Audited Financial Statements under Agenda 1 is meant for discussion only as the provision of Section 169(1) of the Companies Act 1965 does not require the Audited Financial Statements to be formally approved by the shareholders. As such, this item is not put forward for voting.

Declaration of Single Tier Final Dividend of 12 sen per share (24%) and Special Single Tier Final Dividend of 3 sen per share (6%) for financial year ended 31 August 2015

8. In accordance with Article 153 of the Company’s Articles of Association, the Company in General Meeting may declare dividends, but no dividend shall exceed the amount recommended by the Directors. A Single Tier Final Dividend of 12 sen per share (24%) and Special Single Tier Final Dividend of 3 sen per share (6%) based on 622,249,162 ordinary shares (the adjusted issued capital after netting 3,324,400 treasury shares) as at the date of the Notice amounting to RM74,669,899.44 and RM18,667,474.86 in respect of the financial year ended 31 August 2015 is proposed for shareholders’ approval. The actual amount of final dividend per ordinary share would be dependent on the actual number of ordinary shares as at the Book Closure Date. Pursuant to Paragraph 8.26 of the Bursa Securities Main Market Listing Requirements, the Single Tier Final Dividend and Special Single Tier Final Dividend, if approved, shall be paid not later than three (3) months from the date of the shareholders’ approval.

Determination and Payment of Directors’ fees

9. Article 105 of the Company’s Articles of Association provides that fees payable to Directors shall not be increased except pursuant to a resolution passed at a General Meeting. Therefore, shareholders’ approval is required for the determination and payment of Directors’ fees amounting to RM1,259,700.00 for the financial year ended 31 August 2015.

Re-election of Directors who retire by rotation pursuant to Article 94

10. Article 94 of the Company’s Articles of Association provides that one third (1/3) of the Directors of the Company for the time being shall retire by rotation at an AGM of the Company. All the Directors shall retire from office once at least in each three (3) years but shall be eligible for re-election.

The profiles of the Directors who are standing for re-election as per Agenda 4 of the Notice of Seventeenth AGM are stated on pages 12 and 13 of this Annual Report.

Re-election of Directors who retire by rotation pursuant to Article 100

11. Article 100 of the Company’s Articles of Association provides that the Directors shall have power at any time and from time to time to appoint any other person to be a Director of the Company either to fill a casual vacancy or as an addition to the existing Directors but so that the total number of Directors shall not at any time exceed the maximum number fixed by the Company’s Articles of Association. Any Director so appointed shall hold office only until the next AGM of the Company when he shall retire but shall then be eligible for re-election but he shall not be taken into account in determining the Directors who are to retire by rotation at the meeting.

The profiles of the Directors who are standing for re-election as per Agenda 5 of the Notice of Seventeenth AGM are stated on page 15 of this Annual Report.

Re-appointment of Director who has attained the age of over seventy (70) years pursuant to Section 129 (6) of the Companies Act, 1965

12. Tan Sri Dato’ Seri Utama Arshad Bin Ayub, who has attained the age of over 70 years, has offered himself for re-appointment as Director of the Company and to hold office until the conclusion of the next AGM. The re-appointment, shall take effect if the proposed Ordinary Resolution 8 is passed by a majority of not less than three-fourths of such members as being entitled to vote in person or, where proxies are allowed, by proxy at this Seventeenth AGM.

The profile of the Director who is standing for re-appointment is stated on page 9 of this Annual Report.
Re-appointment of Auditors

13. The Audit Committee and the Board have considered the re-appointment of Messrs. Ernst & Young as Auditors of the Company and collectively agreed that Messrs. Ernst & Young has met the relevant criteria prescribed by Paragraph 15.21 of Bursa Securities Main Market Listing Requirements.

EXPLANATORY NOTE TO SPECIAL BUSINESS:

1. Authority pursuant to Section 132D of the Companies Act, 1965.

Ordinary Resolution No. 1 is proposed for the purpose of granting a renewed general mandate (“General Mandate”) and empowering the Directors of the Company, pursuant to Section 132D of the Companies Act, 1965, to issue and allot new shares in the Company from time to time provided that the aggregate number of shares issued pursuant to the General Mandate does not exceed 10% of the issued and paid-up share capital of the Company for the time being. The General Mandate, unless revoked or varied by the Company in General Meeting, will expire at the conclusion of the next AGM of the Company.

The General Mandate will provide flexibility to the Company for allotment of shares for any possible fund raising activities, including but not limited to placement of shares for the purpose of funding future investment project(s), working capital and/or acquisition(s).

As at the date of this Notice, no new shares in the Company were issued pursuant to the mandate granted to the Directors at the Sixteenth AGM held on 8 January 2015 and which will lapse at the conclusion of the Seventeenth AGM.

2. Retention as Independent Non-Executive Director of the Company pursuant to the Malaysian Code on Corporate Governance 2012 (Ordinary Resolution No. 2)

Tan Sri Dato’ Seri Utama Arshad Bin Ayub was appointed as Independent Non-Executive Director of the Company on 4 September 2000, and has, therefore served for more than nine (9) years. As at the date of the Notice of the AGM, he has served the Company for fifteen (15) years. However, he has met the independence guidelines as set out in Chapter 1 of Bursa Securities Main Market Listing Requirements. The Board, therefore, considers him to be independent and believes that he should be retained as Independent Non-Executive Director.

3. Proposed Renewal of Authority for Share Buy-Back

Ordinary Resolution No. 3 is proposed for the purpose of renewing the authority granted by the shareholders of the Company at the Sixteenth AGM held on 8 January 2015. The proposed renewal will allow your Board of Directors to exercise the power of the Company to purchase not more than 10% of the issued and paid-up share capital of the Company at any time within the time period stipulated in Bursa Securities Main Market Listing Requirements.

STATEMENT ACCOMPANYING NOTICE OF ANNUAL GENERAL MEETING

There is no Director standing for election at the Seventeenth AGM of the Company.

REGISTRATION PROCESS FOR 17th AGM & EGM FOR SHAREHOLDERS AND PROXIES

1. Registration will remain open until the conclusion or adjournment of the 17th AGM or EGM or such time as may be determined by the Chairman of the meetings.
2. Please produce your original National Registration Identification Card ("NRIC")/Passport at the registration counters for verification and sign the attendance list. Kindly ensure you collect your NRIC/Passport upon completion.
3. Upon verification and registration, you will be given an identification wristband to be secured around your wrist and a gift bag (up to a maximum of 2 gift bags per person). Kindly also inform the registration officer should you wish to stay for lunch after the meetings.
4. Usage of identification wristband:
   a) Only person with identification wristband will be allowed to enter the meeting hall.
   b) Only person with identification wristband will be allowed to enter the refreshment area and lunch venue. There will be no replacement in the event that you lose or misplace your identification wristband.
5. After registration, please exit the registration area immediately and proceed to the refreshment area located at the same floor as the registration. The meeting hall located at Level 9, Top Glove Tower is only open for admission at 11.00 a.m.
6. No person will be allowed to register on behalf of another person even with the original NRIC/Passport of that other person.
7. Registration counters will only handle verification of identities and registrations. Please proceed to Help Desk if you have any other enquires or need clarifications.

PARKING

Parking is free at Top Glove Tower ONLY. Please produce your parking ticket during registration for validation.

HELP DESK

Please proceed to Help Desk for the following matters:
1. Registration of Corporate Member.
2. Revocation of Proxy’s Appointment.
3. Any clarifications or queries or feedbacks.

RECORD OF DEPOSITORS FOR ATTENDANCE AT 17th AGM AND EGM

For the purpose of determining members who shall be entitled to attend the 17th AGM and EGM, the Company shall request Bursa Malaysia Depository Sdn. Bhd. to issue a General Meeting Record of Depositors ("ROD") as at 28 December 2015. Only depositors whose names appear on the ROD as at 28 December 2015 shall be entitled to attend, speak and vote at the said meetings or appoint proxies to attend, speak and vote on depositors’ behalf.
PROXY
1. A member entitled to attend, speak and vote is entitled to appoint one (1) or more proxies to attend, speak and vote on his/her behalf. If you are unable to attend the 17th AGM and EGM and wish to appoint a proxy to vote on your behalf, please submit your Proxy Form in accordance with the notes and instructions printed therein.
2. If you wish to personally attend the 17th AGM and EGM, please do not submit any Proxy Form. You will not be allowed to attend the aforesaid meetings together with a proxy appointed by you.
3. If you have submitted your Proxy Form prior to the meetings and subsequently decided to personally attend the meetings, please proceed to the Help Desk to revoke the appointment of your proxy.

CORPORATE MEMBER
Any corporate member who wishes to appoint a representative instead of a proxy to attend the 17th AGM and EGM should submit the original certificate of appointment under the seal of the corporation to the office of the Share Registrar at any time before the time appointed for holding the meetings or to the Help Desk staff on the meeting day for the Company’s records. You will NOT be allowed to attend the meetings if you fail to produce the original certificate of appointment.

ENQUIRIES FOR 17TH AGM/EGM AND 2015 ANNUAL REPORT
Please email to agm2016@topglove.com.my, if you have queries in relation to the AGM/EGM, form of proxy, administrative details of the meetings and 2015 Annual Report. The said email account is set up to attend to AGM/EGM enquiries and will be valid from 16 November 2015 to 6 January 2016.
Alternatively, you may contact our Share Registrar at Tel: +603-2084 9000, during office hours:
1. Mr. Wong Piang Yoong (email: piang.yoong.wong@sshsb.com.my)
2. Encik Mohd Hisham Hashim (hishamh@sshsb.com.my)

SPECIAL BUSINESS

10 Authority to issue shares pursuant to Section 132D of the Companies Act, 1965.

11 To retain Tan Sri Dato’ Seti Ustama Arshad Bin Ayub as the Independent Non-Executive Director.

12 Proposed Renewal of Authority for Share Buy-back.

Signed on this _____ day of __________ 2015/2016

Number of Shares held CDS Account No.

Signature of Member/Common Seal

Notes:

1. In respect of deposited securities, only members whose names appear in the Record of Depositors on 28 December 2015 (General Meeting Record of Depositors) shall be eligible to attend the Meeting.

2. A member of the Company entitled to attend and vote at the Meeting is entitled to appoint one or more proxies to attend and vote in his stead. A proxy may be a member of the Company and a member only in respect of shares in the Company for which he is entitled to appoint a proxy. The instrument appointing a proxy shall be signed by the appointor or by his attorney duly authorised in writing. A proxy appointed to attend and vote at the Meeting shall have the same rights as the member to speak at the Meeting.

3. Where a holder appointing two or more proxies, the appointment shall be invalid unless he specifies the proportion of his shareholdings to be represented by each proxy.

4. The instrument appointing a proxy shall be in writing under the hand of the appointor or of the attorney duly authorised or, if the appointor is a corporation, under the seal of the appointor or of an officer of the appointor duly authorised.

5. Where a member of the Company is an exempt authorised nominee which holds ordinary shares in the Company for multiple beneficial owners in one omnibus account, an instrument appointing a proxy shall be in writing under the hand of the member or of an attorney duly authorised.

6. The instrument appointing a proxy must be deposited at the office of the Share Registrar, Securities Services (Holdings) Sdn. Bhd. at Level 7, Menara Menara, Jalan Damanlela, Pusat Bandar Damansara, Damansara Heights, 56000 Kuala Lumpur, Wilayah Persekutuan not less than 48 hours before the time appointed for holding the Meeting or at any adjournment thereof.

* Strike out whichever not applicable.

Please indicate with an “X” in the spaces provided below how you wish your votes to be casted. If no specific direction as to voting is given, the Proxy will vote or abstain from voting at his/her discretion.
